Oasis Mono

Oasis Mono

PRODUCT FEATURES

- High strength fabricated steel construction
- Supplied fully assembled
- Hot Dip Galvanised

DIMENSIONS

- Length 590mm Depth 590mm Height 415mm

BODY SPECIFICATIONS

Body

- Hardwood Timber Battens

Frame

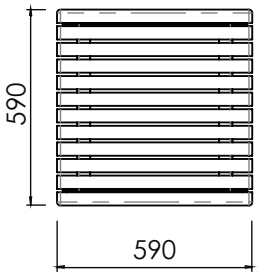
- 5.0mm Mild Steel
- Hot Dip Galvanised

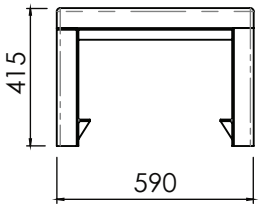
Anti-skateboard Brackets

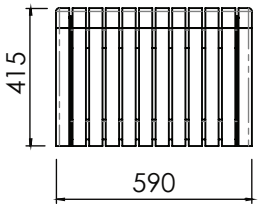
- ☐ Optional Stainless Steel Brackets

Fixing

- ☐ Above Ground Flange Fixed (AGFF)
- ☐ Free Standing







Oasis Mono

Care & Maintenance Suggestions

Our products are constructed using a variety of different materials, all of which are highly corrosion resistant. Despite this, some care is required to maintain their good looks. The extent to which cleaning is required will depend on a number of factors including environmental conditions, construction activity and level of use.

MAINTAINING THE METAL SURFACES

To maintain the original appearance of the metal, it should be cleaned regularly using warm soapy water.

Galvanised Steel: If the galvanised coating is significantly penetrated, a zinc rich primer should be applied to the damaged area to maintain its corrosion resistance.

MAINTAINING THE TIMBER

Dirt can be removed using mild detergents. If the timber is left untreated, over time it will gradually change to a silvery grey colour. The timber will remain structurally sound without further maintenance.
